PART 1

SECTION 1: TRAUMATOLOGY

1. Trauma: A Modern International Epidemic	3
• Epidemiology 3	
• Prehospital Care 5	
2. Know Your Skeletal System	7
• Brief Anatomy 7	
• Organization of the Bones 9	
• Types of Bones 10	
• About Joints 11	
3. General Principles of Fractures and Dislocations	13
• Definitions 13	
• Types of Fractures 13	
• Approach to Orthopedic Injury 17	
• Investigations in Trauma 19	
• Management of Fractures 20	
• Dislocations 21	
• Open Fractures 23	
• Approach in Compound Fractures 24	
• Other Forms of Fracture Immobilization 26	
• Approach to a Polytrauma Case 27	
• Polytrauma 28	
4. Fracture Healing Methods	29
• Methods of Fracture Healing 29	
• Indirect Fracture Healing 29	
• Primary Bone Healing (Direct Bone Healing, Healing by Primary Intention) 30	
• Distraction Histogenesis 30	
5. Complications of Fractures	32
• Acute Respiratory Distress Syndrome (Syn: Fat Embolism) 32	
• Volkmann's Ischemia or Compartment Syndromes 34	
• Compartmental Syndrome of Forearm 34	
• Nonunion 38	
• Avascular Necrosis 41	
• Traumatic Myositis Ossificans 42	
• Classification (Based on its Location) 43	
• Malunion 43	
• Other Important Complications of Fractures 45	
• Injury to Blood Vessels 46	
• Injury to Nerves 47	
• Joint Stiffness 48	
• Reflex Sympathetic Dystrophy/Complex Regional Pain Syndrome 48	
• Osteomyelitis 48	
• Implant Failure 48	
• Post-traumatic Osteoarthritis 48	
• Growth Alterations 49	
• Shortening 49	
• Complications Peculiar to Open Fractures 49	
• Gas Gangrene 49	
• Tetanus 50	
• Crush Syndrome 51	
6. Emergency Care of the Injured	52
• First Aid 52	
• Goals of First Aid Treatment 52	
• Initial Care of the Injured 52	
• Modus Operandi in First Aid 52	
• Examine the Vital Structures 53	
• Management at the Hospital 54	
7. Fracture Treatment Methods: Then, Now and Future	56
• History of Fracture Treatment 56	
• The Plaster Bandages 57	
• Thomas Splint 57	
• Traction 57	
• Functional Brace 57	
• Open Fractures 57	
• Early Fracture Surgery 58	
• External Fixation 58	
• Intramedullary Fixation 58	
• AO Group 58	
• Fracture Treatment: Now 59	
• General Principles of the Methods of Fracture Treatment 59	
• Splints 61	
• Conventional Plaster Splints 61	
• Functional Cast Brace 63	

- Important Splints in Orthopedics Other than POP 64
- Böhler–Braun (BB) Splint 64
- Traction in Orthopedics 65
- Operative Treatment 69
- Types of Implants 69
- Varieties of Implants 70
- Plates 71
- Limited Contact Dynamic Compression Plates 73
- Intramedullary Nail 73
- Other Important Internal Fixation Methods 74
- Fixation Techniques by Noncompression Methods 77
- External Fixation 78

8. Recent Advances in Fracture Treatment 82

- Advances in the Existing Methods of Fracture Treatment 82
- Improvements in Plaster of Paris Splints 82
- Functional Cast Brace 82
- Improvements in AO Technique 82
- Improvements in Intramedullary Nails 83
- Interlocking Nails 83
- Improvements in External Fixation 84
- Newer External Fixators 88
- Advances in Hip Surgery 88
- Recent Advances in Spine Surgery 88
- Recent Advances in Bone Grafting Method 90
- Advantages Over the Conventional Autologous Bone Grafting 90
- Computers in Orthopedics 91
- Robotics in Orthopedics 91
- Artificial Intelligence in Orthopedics 91

9. Fractures in Special Situations 92

- Fractures in Children 92
- Epiphyseal Injuries 99
- Pathological Fractures 99
- Fatigue or Stress Fractures 101

10. Soft Tissue Injuries 104

- Muscle Injury (Strains) 105
- Injuries to the Joints 108
- Injury to the Synovium 110
- Injury to the Bursa 112
- Special Types of Muscle Injuries 113
- Important Soft Tissue Problems 114

SECTION 2: REGIONAL TRAUMATOLOGY

11. Injuries Around the Clavicle 119

- Fracture Clavicle 119

- Injuries of the Acromioclavicular Joint 123
- Injuries of the Sternoclavicular Joint 125

12. Injuries of the Shoulder Joint 127

- Dislocation of Shoulder 127
- Anterior Dislocation of Shoulder 127
- Recurrent Anterior Shoulder Dislocation 131
- Inferior Dislocation (Luxatio Erecta) 136
- Posterior Dislocation of the Shoulder Joint 136
- Fracture of the Scapula 137

13. Injuries of the Arm 139

- Fracture Shaft Humerus 139
- Distal Humerus Fractures 142

14. Injuries Around the Elbow 145

- Brief Anatomy 145
- Injuries Around the Elbow 146
- Supracondylar Fracture 147
- Dislocation of Elbow Joint 156
- Unreduced Dislocation of the Elbow 160
- Radial Head Fracture 161
- Fracture of the Olecranon 162
- Coronoid Fractures 164
- Capitellum Fractures 165
- Physeal Fractures 166
- Lateral Condyle of Humerus (Jupiter Fracture) 166
- Medial Condyle of Humerus 168
- Sideswipe Injuries (Syn: Traffic Elbow, Car Window Elbow) 168

15. Injuries of the Forearm 171

- Fracture Both Bones of the Forearm 171
- Isolated Distal Ulnar Fracture (Also Called Nightstick Fracture) 174
- Monteggia Fracture 175
- Distal Radius Fracture 177
- Comminuted Distal Radial Fracture 178
- Colles' Fracture 179
- Distal Shaft Radius Fracture 179
- Essex-Lopresti Fracture 180
- Radial Styloid Fracture (Chauffeur's Fracture) 180
- Smith's Fracture 181
- Barton's Fracture 182
- Dorsal Barton 182
- Volar Barton (Palmar Rim Dislocation) 183

16. Injuries to the Wrist 185

- Brief Anatomy 185

• Carpal Injuries 185 • Scaphoid Fracture 186 • Injuries of the Carpometacarpal Joints of the Thumb 189 • Bennett's Fracture 190 • Rolando's Fracture 190 • Radiocarpal Injuries 191 • Radiocarpal Dislocation 191 • Dorsal Trans-scaphoid Perilunar Dislocation 192 • Lunate Fractures 192 • Triquetral Fractures 193 • Pisiform Fractures 193 • Hamate Fractures 193 • Capitate Fractures 194 • Trapezoid Fracture 194 • Trapezium Fracture 194	
17. Hand Injuries	195
• General Principles 195 • Injuries to the Phalanx 196 • Mallet Finger (Syn: Baseball Finger, Drop Finger, Cricket Finger) 197 • Distal Interphalangeal Joint Injuries 198 • Jersey Finger 199 • Fractures of the Middle Phalanx 199 • Dislocations of the IP Joint 199 • PIPJ Dislocation 200 • Proximal Phalanx Fractures 201 • Metacarpophalangeal Joint Dislocations 202 • Kaplan's Lesion 203 • Dislocation of the Thumb Metacarpophalangeal Joint (Syn: Gamekeeper's Thumb, Skier's Thumb) 204 • Injuries to Metacarpal Bones 204 • Metacarpal Fractures (II to V) 204 • Metacarpal Fracture of the Little Finger (Boxer's Fracture) 206 • Metacarpal Head Fractures 206 • Metacarpal Fracture of the Thumb 207 • Tendon Injuries 207 • Flexor Tendon Injuries 207 • Extensor Tendon Injuries 209 • Soft Tissue Injuries of the Hand 210 • Crush Injuries of the Hand and Amputations 210	
18. Dislocations of the Hip Joint	212
• Posterior Dislocation of the Hip 213 • Type V Posterior Fracture Dislocations 218 • Anterior Dislocation of the Hip 220 • Central Dislocation of the Hip 222	
19. Fracture Femur	226
• Fracture Neck of Femur 226 • Proximal Femur Fractures 226 • Fracture Shaft Femur 229 • Fracture Distal Femur 236 • Supracondylar Fracture of Femur 236 • Ipsilateral Fractures of Femoral Shaft and Neck 239	
20. Injuries of the Knee	244
• Brief Anatomy 244 • Knee Ligament Injuries: General Principles 245 • Collateral Ligament Injury 245 • Cruciate Ligament Injuries 247 • Posterior Cruciate Ligament Tear 251 • Combined Knee Ligament Injuries 251 • Meniscal Injuries 253 • Medial Meniscus Injury 253 • Fracture of Patella 257 • Injury to the Extensor Apparatus of Knee 262 • Quadriceps Injury 262 • Acute Dislocation of Patella 263 • Acute Dislocation of Knee 263	
21. Fracture of Tibia and Fibula	265
• Tibial Plateau Fractures 265 • Fracture Shaft of Tibia and Fibula 268 • Tibial Plafond Fractures 274 • Open Tibial Fractures 276	
22. Injuries of the Ankle	277
• Brief Anatomy 277 • Ankle Injuries 277 • Ankle Sprains 282 • Trimalleolar Fracture (Cotton Fracture) 282 • Lateral Ligament Sprain 282 • Medial Ligament Sprain 284 • Tendo-Achilles Injury 284	
23. Injuries of the Foot	287
• Forefoot Injuries 287 • Interphalangeal Joint Dislocations 289 • Metatarsophalangeal Joint Injuries 289 • Injuries to the Other MTP Joints 290 • Sesamoid Bone Injuries 290 • Metatarsal Fractures 291 • Fifth Metatarsal Base Fractures 291 • Jones Fracture 292 • March Fracture (Insufficiency Fracture) 293 • Midfoot Injuries 293 • Navicular Bone Fractures 293	

- Cuboid Fractures 294
- Cuneiform Injuries 295
- Tarsometatarsal Injuries (Lisfranc Injuries) 295
- Hindfoot Injuries 297
- Fracture Neck Talus 302
- Fractures of Body of Talus 304

24. Pelvic Injuries, Rib and Coccyx Injuries 306

- Brief Anatomy 306
- Fracture Pelvis 306
- Injury to the Coccyx 313
- Rib Fractures 314

25. Injuries of the Spine 316

- Brief Anatomy 316
- Injuries of the Cervical Spine 318
- Whiplash Injury (Syn: Acceleration Injury, Cervical Sprain Syndrome, Soft Tissue Neck Injury) 319
- Individual Cervical Vertebra Fracture of Interest 325
- Thoracic and Lumbosacral Spine Injuries 326
- Spinal Cord Injury 331
- Cauda Equina Syndrome 335

26. Peripheral Nerve Injuries 337

- Brief Anatomy 337
- Microscopic Anatomy 337
- General Principles of Nerve Injury 338
- Classification of Nerve Injuries 338
- Ulnar Nerve Injury 342
- Claw Hand 343
- Radial Nerve Injury 348
- Injury to Sciatic Nerve 351
- Foot-Drop 352
- Meralgia Paresthetica 354
- Brachial Plexus Injuries 355
- Types of Lesions 355
- Erb's Palsy 357
- Klumpke's Paralysis 358
- Axillary Nerve Injury 358
- Injury to the Long Thoracic Nerve (Medial Winging of the Scapula) 358

SECTION 3: NONTRAUMATIC ORTHOPEDIC DISORDERS

27. Approach to Orthopedic Disorders 363

- History 363
- Examination 365
- Investigations 368

28. Deformities and Their Management 370

- Definition 370
- Classification 370
- Deformities Since Birth (Congenital) 370
- Acquired Deformities 370

29. Treatment of Orthopedic Disorders 373

- Masterly Inactivity 373
- Conservative Methods 373
- Operative Treatment Methods 376

30. Regional Conditions of the Neck 381

- Torticollis (Wryneck) 381
- Thoracic Outlet Syndrome 382
- Cervical Rib 384
- Cervical Disk Syndromes 385

31. Regional Conditions of the Upper Limb 386

Regional Conditions of the Shoulder 386

- Rotator Cuff Syndrome 389
- Supraspinatus Tendinitis 390
- Rotator Cuff Tear 390
- Deltoid Contracture 392

Regional Conditions of the Elbow 393

- Golfer's Elbow (Syn: Epitrochleitis, Medial Tennis Elbow) 397
- Olecranon Bursitis Student's Elbow/Computer Elbow (Syn: Miner's Elbow or Draughtsman Elbow) 398

Regional Conditions of the Wrist and Hand 398

- Trigger Fingers and Thumb 399
- Ganglia (Ganglion Cyst) 400
- Dupuytren's Contracture 401
- Carpal Tunnel Syndrome 403
- Compound Palmar Ganglion 405
- Kienbock's Disease 406

32. Regional Conditions of the Lower Limb 408

- Regional Conditions of the Hip/Coxa Vara 408
- Legg-Calvé-Perthes Disease (Syn: Osteochondritis Deformans Juvenilis and Coxa Plana) 409
- Slipped Capital Femoral Epiphysis (Syn: Epiphyseal Coxa Vara; Adolescent Coxa Vara) 415
- Regional Disorders of the Knee 416
- Genu Valgum (Knock-Knee) 417
- Genu Varum (Bow Legs) 419
- Genu Recurvatum 420
- Bursae Around the Knee 421
- Popliteal Cyst (Baker's Cyst) 422

- Recurrent Dislocation of Patella 423
- Chondromalacia Patella 425
- Loose Bodies in the Knee (Joint Mice) 426
- Lesser-Known But Important Regional Conditions of the Knee 426
- Osgood-Schlatter Disease 427
- Sinding-Larsen-Johansson Syndrome 427
- Iliotibial Band Syndrome 427
- Plica Syndrome 427
- Osteochondritis Dissecans 427
- Hoffa's Syndrome (Syn: Fat Pad Syndrome) 428
- Infantile Quadriceps Contracture 428
- Postinjection Quadriceps Contractures 429
- Regional Disorders of the Foot 432
- Pes Cavus 433
- Pes Planus 434
- Foot Pain 436
- Metatarsalgia 436
- Morton's Neuroma 437
- Painful Heel 438
- Traumatic Disturbances 439
- Hageland's Disease or Winter Heel 439
- Developmental and Pathological Disturbances of the Heel 439
- Calcaneal Spurs 440
- Fat Pad Insufficiency (Atrophy of Fat Pad) 442
- Calcaneal Stress Fracture 442
- Epiphysitis of the Calcaneum (Sever's Disease) 442
- Lesser-Known But Important Foot Conditions 443
- Pump-Bump 443
- Dancer Tendinitis 443
- Hallux Valgus 443
- Hallux Rigidus 444
- Hammer Toes 444
- Claw Toes 445
- Sesamoiditis 445

33. Regional Conditions of the Spine 448

- Scoliosis 448
- Idiopathic Scoliosis (Unknown Cause) 449
- Spondylolisthesis 454
- Kyphosis 457
- Lumbar Canal Stenosis 458

34. Regional Conditions of Hand 460

- Congenital Anomalies of the Hand 460
- Infections of the Hand 461
- Paronychia 462
- Apical Subungual Infection 462

- Distal Pulp Space Infection (Syn: Felon) 462
- Middle and Proximal Volar Space Infection 463
- Infection of the Web Spaces 463
- Deep Palmar Abscess 463
- Pyogenic Flexor Tenosynovitis 464
- Arthritic Hand 465
- Paralytic Hand 466

SECTION 4: LIFESTYLE ORTHOPEDIC PROBLEMS

35. Low Backache, Common Neck Pain and Repetitive Stress Injury 471

35A: Low Backache 471

- Epidemiology of Backache 471
- Posture 471
- Pathological Physiology 471
- Lumbar Disk Disease and Disk Prolapse 473
- Approach to A Patient with Life Style Low Backache 485
- Backache in Special Situations 489

35B: Common Neck Pain 490

- The Life Style Neck Pains 490

35C: Repetitive Stress Injury 497

- Definition 497
- Incidence 497

SECTION 5: GENERAL ORTHOPEDICS

36. Congenital Disorders 503

- Congenital Disorders of Upper Limb 504
- Sprengel's Deformity 505
- Cleidocranial Dysostosis 506
- Congenital Radioulnar Synostosis 507
- Madelung's Deformity 508
- Congenital Absence of Radius (Radial Club-Hand) 509
- Congenital Dislocation of Radial Head 509
- Congenital Disorders of Lower Limbs 510
- Congenital Dislocation of Knee 516
- Congenital Pseudarthrosis of Tibia (Anterolateral Bowing Tibia) 517
- Congenital Talipes Equinovarus 518
- Idiopathic CTEV 519
- Congenital Absence of Fibula/ Fibular Hemimelia 528
- Congenital Absence of Tibia 528
- Congenital Vertical Talus (Syn: Rocker-Bottom Flatfoot, Congenital Rigid Flatfoot) 528

37. Developmental Disorders

- Achondroplasia 532
- Osteogenesis Imperfecta 534
- Mucopolysaccharide Disorders 535
- Morquio-Brailsford Disease 536
- Hurler's (Gargoylism) 536
- Hunter's Disease 536
- Hereditary Multiple Exostosis (Diaphyseal Aclasis) 536
- Dyschondroplasia (Ollier's Disease) 536
- Maffucci's Disease 537
- Osteopetrosis 537
- Epiphyseal Dysplasias 537
- Metaphyseal Dysplasias 538
- Diaphyseal Dysplasia 538
- Nail-Patella Syndrome (Onycho-Osteodysplasia) 539
- Congenital Neurofibromatosis (Von Recklinghausen's Disease) 540
- Paget's Disease 540

38. Metabolic Disorders

- Nutritional Rickets (Vitamin D Deficient Rickets) 544
- Renal Osteodystrophy 547
- Vitamin D-resistant Rickets 548
- Celiac Rickets 550
- Osteomalacia 550
- Hyperparathyroidism 552
- Primary Hyperparathyroidism (Osteitis Fibrosa Cystica, Von Recklinghausen's Disease) 552
- Secondary Hyperparathyroidism 553
- Scurvy 553
- Metabolic Disorders Leading to Osteosclerosis 554
- Fluorosis 554

39. Osteomyelitis

- Acute Osteomyelitis 556
- Subacute Osteomyelitis (Brodie's Abscess) 562
- Chronic Osteomyelitis 562
- Osteomyelitis of Special Importance 566
- Sclerotic Osteomyelitis of Garré 566
- Tubercular Osteomyelitis 567

40. Skeletal Tuberculosis

- Tuberculosis Spine (Known After Sir Percival POTT) 572
- Tuberculosis Spine with Paraplegia 578
- Tuberculosis of the Hip Joint 580
- Tuberculosis of the Knee 586

531

- Tuberculosis of the Shoulder 588
- Tuberculosis of the Ankle 589
- Tubercular Osteomyelitis 590
- Tubercular Osteomyelitis without Joint Involvement 590
- Spina Ventosa Type 590
- Tuberculosis of Tubular Bones 590

41. Disorders of Joints

592

- Infective Arthritis (Syn: Pyogenic Infection of Joint or Septic Arthritis) 592
- Gonococcal Arthritis 594
- Syphilis of Joints 595
- Neuropathic Joints (Charcot's) 595
- Hemophilic Arthritis (Bleeder's Joints) 596
- Synovial Chondromatosis 598

42. Rheumatic Diseases

600

- Rheumatoid Arthritis 600
- Orthopedic Deformities in Rheumatoid Arthritis 602
- Rheumatoid Hand 602
- Rheumatoid Foot 603
- Seronegative Spondyloarthropathies 612
- Ankylosing Spondylitis (Syn: Marie-Strumpell Disease) 612
- Fibromyalgia 615
- Crystalline Arthropathies 616
- Monosodium Urate Arthropathy (Gout) 616
- Pseudogout 618

43. Neuromuscular Disorders

620

- Cerebral Palsy (Syn: Static Encephalopathy) 620
- Poliomyelitis 623
- Arthrogryposis Multiplex Congenita (Syn: Multiple Congenital Contractures) 626
- Leprosy in Orthopedics 626
- Muscular Dystrophies 629
- Neural Tube Defects (Dystrophism) 630

44. Bone Neoplasias

634

- Classification of Bone Tumors 636
- Bone Tumors of Cartilaginous Origin 637
- Chondroma (Enchondroma, Hondromyxoma) 638
- Chondroblastoma 639
- Chondrosarcoma 639
- Chondromyxoid Fibroma 641
- Osseous Origin Bone Tumors 641
- Osteogenic Sarcoma 642
- Resorptive Bone Tumors 645
- Aneurysmal Bone Cyst 645

568

- Unicameral Bone Cyst 646
- Giant Cell Tumor (Syn: Osteoclastoma) 647
- Tumors of Nonosseous Origin 649
- Multiple Myeloma (Plasmacytoma) 651
- Metastatic Tumors of Bone 652
- Inclusion Tumors 654
- Recent Trends in Limb Salvage Surgery 654

SECTION 6: GERIATRIC ORTHOPEDICS

45. Proximal Humeral Fractures 659

- Mechanism 659
- Classification 659
- Clinical Features 660
- Investigations 660
- Management 660
- Complications 661

46. Distal Forearm Fractures 663

- Colles' Fracture 663

47. Fracture Neck of Femur 675

- *Brief Anatomy* 675
- Fracture Neck of Femur 675
- Avascular Necrosis 683

48. Spine Fractures 688

- Causes 688
- Clinical Features 688
- Clinical Findings 688
- Diagnostic Tests 688
- Treatment 689

49. Osteoporosis 692

- Definition 692
- Antiresorptive Drugs 700
- Fragility Fractures and their Management 701

50. Osteoarthritis 706

- Definition 706
- Osteoarthritis of the Knee 706
- Nonarthroplasty Treatment of OA Knees (AAOS) 714
- Osteoarthritis of the Hip (Familiarly Called as Malum Coxae Senilis) 715
- Nonpharmacological Approach 716
- Osteoarthritis of Other Regions 719
- Recent Advances in the Management of Osteoarthritis of the Knee 721

51. Cervical Disk Syndromes 722

52. Lumbar Disk Disease and Canal Stenosis 726

- Canal Stenosis 726

SECTION 7: MISCELLANEOUS

53. Amputations 733

- Types 733
- Amputation Levels 734
- Principles 735
- After Treatment 736
- Important Amputations of Lower Extremity 736
- Complications 737

54. Prosthetics and Orthotics 739

- Prosthetics 739
- Orthotics 742
- Red Flags in Prosthetic and Orthotic Management 746
- Common Mistakes in Prosthetic and Orthotic Prescription 746

55. Sports Injuries 749

- Classification of Sports Injuries 750
- Common Sports Injuries 750
- Treatment of Sports Injury 752

56. Evidence-based Orthopedics 755

- Cost-effectiveness Analysis 761
- Studies Other than RCT 761
- Decision Analysis Study 762
- Quality of Reporting 762
- Developing an Evidence-based Balance Sheet 763
- Communication to a Patient 763

SECTION 8: RECENT ADVANCES IN ORTHOPEDICS

57. Pain Portal Blocks 769

Pain Management in Orthopedics and Musculoskeletal Disorders 769

- The New Science of Pain Portal Blocks 769

58. Ozone and Hydrogen in Orthopedics 780

- What is Molecular Therapeutics and Most Common Molecules Used in Orthopedics? 780
- Ozone: Characteristics and Properties 780
- Actions of Ozone and Routes of Administration 780
- Indications of Ozone Therapy 782
- Contraindications of Ozone Therapy 784

- Intra-articular Ozone Therapy 784
- Intradiskal Ozone 786
- Ozonated Saline, Water and Oil 787
- Vaginal, Bladder and Rectal Ozone 789
- Major Autohemotherapy and Extracorporeal Blood Oxygenation and Ozonation 791
- Hydrogen Characteristics and Properties 792

59. Robotics in Orthopedics 797

- Introduction to Robotics in Orthopedics: Evolution and Current Trends 797
- Fundamentals of Robotic-assisted Surgery in Orthopedics 797
- Robotic Systems and Platforms in Orthopedic Surgery 798
- Applications of Robotics in Joint Replacement Surgery 799
- Robotics in Spinal Surgery: Techniques and Innovations 801
- Precision and Accuracy in Robotic Orthopedic Procedures 801
- Patient Selection and Preoperative Planning for Robotic Surgery 801
- Integration of Robotics with Navigation Systems in Orthopedics 802
- Future Directions and Emerging Technologies in Robotic Orthopedics 802
- Ethical and Legal Considerations in Robotic-assisted Orthopedic Surgery 802

60. Artificial Intelligence in Orthopedics 803

- Introduction to Artificial Intelligence in Health Care and Orthopedics: Evolution and Current Landscape 803
- Applications of AI in Orthopedic Diagnostics: Imaging and Clinical Decision Support 805
- AI in Personalized Orthopedic Treatment Planning and Optimization 805
- Predictive Analytics and AI in Orthopedic Outcome Prognosis 806
- AI-driven Rehabilitation and Monitoring in Orthopedics 806
- Integration of AI with Wearable Devices and IOT in Orthopedic Care 806
- AI-assisted Orthopedic Education and Training 807
- Future Directions and Innovations in AI for Orthopedics 807

61. Wholistic Orthopedics 809

- Types of Orthopedic Diseases 809
- Orthopedic Conditions have Changed: Modern Orthopedic Problems 810

- Wholistic Therapy Modality 1: Human Therapy Part 1 827
- Wholistic Therapy Modality 2: Proforma Therapy 829
- Wholistic Therapy Modality 3: Judicious Drug Therapy 831
- Wholistic Therapy Modality 4: Multimodal Physiotherapy 832
- Wholistic Therapy Modality 5: Therapeutic Exercises 832
- Wholistic Therapy Modality 6: Mind Body Exercises 832
- Wholistic Therapy Modality 7: Relaxation Therapies 834
- Wholistic Therapy Modality 8: Diet Therapy 834
- Wholistic Therapy Modality 9: Supportive Therapy 836
- Wholistic Therapy Modality 10: Reversal Therapy Concept 836
- Wholistic Therapy Modality 11: Education Therapy 836
- Wholistic Therapy Modality 12: Newer Techniques 837
- Wholistic Therapy Modality 13: Surgery 837
- Wholistic Therapy Modality 14: Human Therapy 837
- Osteoporosis and Multisystem and Multiskeletal Problems 839

PART 2

SECTION 9: COMMON SURGICAL TECHNIQUES

62. Common Surgeries of the Humerus 849

- Dynamic Compression Plating for Fracture Shaft of Humerus 849
- Interlocking Nailing of Fracture Humerus 852
- Supracondylar Fracture Humerus: Percutaneous Fixation 857
- Intercondylar Fracture Humerus: Reconstructions 862

63. Common Forearm Surgeries 869

- Excision of the Radial Head 869
- Forearm DCP Plating 869
- Medullary Fixation for Fracture of Radius and Ulna 872
- Darrach's Operation 872

64. Common Hip Surgeries 874

- Hemireplacement Arthroplasty 874

- Surgical Technique of AMP Prosthesis 881
- Internal Fixation of Fracture Neck of Femur 884

65. Common Femur Surgeries 886

- Intramedullary Nailing 886
- Interlocking Nailing 887
- DCP Plating 891

66. Common Patella Surgeries 894

- Patellectomy 894
- Tension Band Wiring (Modified) 894

67. Common Tibia Surgeries 898

- DCP Plating for Tibia 898
- Interlocking Nailing of Tibia 902
- Malleolar Fixations 905

68. Surgery for Congenital Talipes Equinovarus 910

- Indications 910
- Approach 910
- Surgical Steps 910

69. Common Spine Surgeries 912

- Laminectomy 912
- Posterior Instrumentation for Vertebral Compression Fractures 915
- Posterior Decompression and Surgical Stabilization 919

70. Common Finger and Toe Surgeries (Percutaneous Fixation) 924

- Finger Fracture 924
- TOE Injuries 931
- Surgical Technique of Percutaneous Fixation of TOE Fractures 932

71. External Fixation 936

- Surgical Technique of Application of External Fixators 936

SECTION 10: ARTHROSCOPY AND ARTHROPLASTY

72. Arthroscopy Basics 945

- What is Arthroscopy? 945
- Indications for Arthroscopy 946

73. Arthroplasty Basics 949

- Arthroplasty 949

- Hip and Knee Arthroplasty 949
- Surgical Steps of Total Hip Replacement 950
- Surgical Steps of Total Knee Replacement 961

SECTION 11: CLINICAL EXAMINATIONS IN ORTHOPEDICS

74.1. Examination of a Bony Swelling 979

- History 979
- Physical Examination of a Bony Lesion 980
- Other Examinations 981
- Clinical Differentiation of Benign and Malignant Bone Tumors 982

74.2. Examination of Shoulder Joint 983

- History 983
- Physical Examination of the Shoulder Joint 984
- Tests for Shoulder Joint 986
- Other Examinations 986

74.3. Examination of Elbow Joint 989

- History 989
- Measurements 992
- Special Tests 993
- Other Examinations 993
- Important Elbow Disorders 993

74.4. Examination of Wrist Joint 995

- History 995
- Physical Examination of Wrist Joint 995
- Range of Movements 996
- Special Tests for Important Wrist Disorders 997

74.5. Examination of Hip Joint 999

- History 999
- Clinical Examination 1000
- Examination in Standing Position 1001
- Important Tests in Standing Position 1003
- Examination in the Lying Down Position 1003
- Tests for Hip Stability 1011

74.6. Examination of Knee Joint 1015

- Problems Related to Knee 1015
- Clinical Examinations 1016
- History 1016
- Physical Examination of the Knee 1017
- Q-Angle (Quadriceps Angle) 1019
- Tests Peculiar to Knee 1020
- Tests for Collaterals 1020
- Tests for Cruciates 1021

- Tests for Menisci 1021
- Examination of Movements 1022
- Examination of the Popliteal Fossa 1025
- Other Examinations 1025
- Common Knee Joint Disorders 1025

74.7 Examination of Sacroiliac Joint 1027

- Physical Examination of Sacroiliac Joint 1027
- Clinical Tests for Sacroiliac Joint 1027
- Tests to Differentiate Pain Due to Hip Joint and Spine 1028

74.8. Examination of Spine 1031

- General Examination 1031
- Examination of the Spine 1031
- Methods of Examination 1033
- Other Examinations 1034
- Range of Movements 1034
- Examination of Spine for Low Back Pain 1036
- True Back Pain 1036
- Nerve Root Pain 1036
- Important Spine Conditions 1038

APPENDICES

Appendix I: Instruments and Implants in Orthopedics 1043

- General Surgical Instruments 1043
- Regular Orthopedic Instruments 1043
- Bone Holding, Plate Holding and Rod Holding Instruments 1043
- Instruments Used to Cut, Nibble, Curette and Make Holes in the Bones Instruments 1045
- Miscellaneous Orthopedic Instruments 1046
- Instruments Used for Insertion of Plate and Screws Instruments 1047
- Instruments Used for Cutting Plaster Casts 1049
- Instruments Used for Wire Insertion Instruments 1049
- Implants in Orthopedics 1050
- Dynamic Hip and Ankle Implants 1051

- Some of the Special Plates Used in Orthopedics 1051
- Different Conventional Intramedullary Nails 1052
- Instruments Used for K-Nail Insertion for Femur 1052
- Küntscher's Cloverleaf Intramedullary Nail 1053
- Prosthesis of the Hip 1053
- Different Hip Implants 1054
- Instruments Used for Hip Hemireplacement Surgery 1056
- Instruments Used for Smith-Peterson Nailing 1056

Appendix II: Guidelines for Practical Examinations 1057

- Guidelines to Fare Better in Clinical Examination in Orthopedics 1057
- Avoid the Following Pitfalls in the Examination Hall 1057
- Instruments Required for Clinical Examination 1058
- Common Examination Cases 1058

Glossary 1061

- Important Classifications in Orthopedics 1061
- Important Radiological Appearances 1062
- Important Fractures with Eponyms 1063
- Important Clinical Tests in Orthopedics 1063
- Important Orthopedic Surgeries by Names 1064
- Terminologies Associated with Fractures 1065
- Important Orthopedic Terminologies 1065
- Important Osteotomies in Orthopedics 1066
- Important Orthopedic Angles 1066
- Important Orthopedic Radiological Lines, Angles and Measurements 1067
- Important Orthopedic Angles and Measurements 1067
- Important Orthopedic Radiological Lines 1067
- Quick Clinical Relevance 1068
